WonderWorks

LET YOUR IMAGINATION RUN WILD!

WonderWorks began as a Top Secret research laboratory on a remote island in the Bermuda Triangle. As legend has it, the world's greatest scientists (led by Professor Wonder) were given the task of creating a man-made tornado and harnessing the POWER of it. During this experiment, something went awry and the power of the tornado was unleashed throughout the laboratory. This created a swirling vortex that was strong enough to rip the laboratory from its foundation. It was carried thousands of miles away and landed upside-down on top of a theater in Pigeon Forge, Tennessee. Remarkably, all of the experiments remained intact and functional. Visitors will step inside the inversion tunnel and be turned upside-down to begin their journey.

At WonderWorks, the unexplainable will come to life and the unusual will be the norm.
