What is ZORB?

ZORB is a New Zealand based company that invented the ZORB globe and the sport of globe riding (rolling down a hill in a large inflatable globe) - and now we have brought it to the USA!!!

ZORB Smoky Mountains is the only official ZORB site in the USA!!!

Jump inside our 12ft inflatable ZORB globe and roll down our specially designed hill, either wet or dry on a 3ft cushion of air.

ZORB is a very safe experience and great family fun. We are open rain or shine, all year round.

Go on...we dare you!

ZYDRO™ Ride

Our ZYDRO™ ride is our wet ride where we throw a few gallons of water in the ZORB globe with you (cold in Summer, warm in Winter) that will have you slipping, sliding, and spinning your way down our specially designed hill.

It is described as a cross between a rollercoaster and a water slide, without tumbling head-over-heels.

Share the experience with up to two friends* or ride solo.

You must be 8years old to ride the ZYDRO.

*down straight track only

ZORBIT Ride

The ZORBIT is our "astronaut in training ride" where you are strapped into our specially designed safety harness in our ZORB globe. You will be riding solo as you tumble head-over-heels safely down our hill.

You must be a minimum of 8years and 5' 2" or taller to ride the ZORBIT.
